Forecast for Sunday 06 Dec 2020

Weather: Dry with clear or sunny spells in the west, with the east liable to more cloud-cover throughout. Turning cloudier generally through the afternoon, again especially across the east of the National Park.

Chance of cloud free mountain/hill tops above 600m: 80% in the west at first, with patchy cloud on the summits. Falling here with time, and always cloudier in the east, with cloud down to near valley floors in places here during the evening.

Visibility: Isolated fog in the valleys in the morning, otherwise very good. General deterioration expected later on as low cloud arrives and mist forms in clearer western parts.
